THADDEUS B. WAKEMAN FOR HARRISON. THE PROGRESSIVE LABOR PARTY WILL HAVE

Thaddeus B. Wakeman, one of the leaders in the revolt against Henry George last fall, has come out for Harrison. Mr. Wakeman is a well-known lawyer, and last fall was the condition of the leaders of the revolt against Henry George last fall, has come out room for that purpose, and who at the close of each division retired once more to the seclusion which the and last fall was the candidate of the Progressive cloak room grants.

"Boss" Scott, of Eric, returning from his long ablance to a Tribune reporter that he felt confident that sence, attempted to raise a breeze. He charged that ticket next November.

'No formal party action has yet been taken," he aid. " although there is still an executive committee in existence, with power to call a convention. The majority of the party seem to think, however, that the leading issue this fall is the question of Protec-tion, and they believe that they can do more effective work in that cause by quietly working for the Republican ticket this year than through a separate party organization. The Progressives are not in any free traders. They made an emphatic protest last fall against Mr. George's free-trade and single-tax nonsense, and they will vote against his present candidate, Mr. Cloveland. The Anarchiets will almost without exception vote for free trade, for that right in the line of their attack upon all governent. But the Socialists and the more conservative labor men are alike in favor of protection. The Progressives, who are mainly Socialists, are bitterly opsed to free trade. They would have preferred to rote for Blaine as the champion of protection, but I no doubt they will now vote for Harrison."

The Progressive Labor party polled 7,000 votes last fall, but their canvass was instrumental in turning many more than that number of votes away from the free-trade candidate. Most of the members of the party are of foreign birth and they do not want any European scale of wages introduced into this country.

MEETING OF THE REPUBLICAN LEAGUE ITS OFFICERS TO CONFER WITH THE NATIONAL REPUBLICAN COMMITTEE.

portant meeting of the representatives of the National League of Republican Clubs was been called manufacturers introduced into the district. This statefor next Wednesday in this city. The object is to confer with the National Republican Committee, the

country, desiring it, with uniforms, banners, badges, orde torches, etc., at special rates. Secretary Humphrey, who has just returned from Chicago, said yesterday: \*We are now getting to work in earnest, and I must say that I feel highly gratified at the manner in which the clubs everywhere are taking hold for Harrison and Morton. We are going to make things lively in this and every other State."

An effort is being made to have both the members of the National and National League committees meet | bor and make an estimate of the necessary expenses.

MR. MORTON WAITING AT RHINEBECK.

Levi P. Morton returned to his summer home at Rhinebeck yesterday afternoon. He will remain there, unless something unexpected happens, until the committee that is officially to inform him that he has been nominated for the Vice-Presidency pers its duty. This will probably take place on Satta, though the matter was not definitely arranged Mr. Morton went away. Mr. Morton's offices in futual Life Insurance building were again overvesterday with friends and acquaintances who to tender their congratulations and give assurforms its duty. Among them were ex-Senator Thomas C. Platt, J. Irving Burns, Colonel Elliott F. Shepard and a number of Mr. Morton's host of business friends. Encouraging reports were given by some of these gentle-men who have just returned from the West and South, where they found Republican strength growing every day. Mr. Morton expressed gratification at the out-look, but still refrained from any elaborate discussion

COL SHEPARD PLEASED WITH THE TICKET. Colonel Elliott F. Shepard, the Editor of "The Mail and Express," returned yesterday from the tour that aking through some of the Western States since the adjournment of the Chicago Convention. He was in high spirits over the indications of Republican

Euccess that he had witnessed in his travels.

"Everything is as auspicious as it can be for a Republican victory," he said. "The party is fully satisfied. fied with the nominees and the platform, and it is organizing thoroughly everywhere. CHINAMEN FIGHTING OVER A WOMAN. Chicago, July 3.—A dispatch from San Francisco says: "War has broken out in Chinatown again be-tween two powerful factions of highbinders. A rich old pawnbroker, named Ah Sing Suri, belonging to the See Yup Society, purchased a good-looking girl in Hong Kong, recently, and had her shipped to San Francisco as his daughter. Some hard swearing had to be done to get the girl through the Custom House, as she was only fourteen year, old and evidently ced. Several highbinders, belonging to the Gah Sin Sur Society of professional robbers and perjurers. corroborated the pawnbroker's testimony, and he wa red to carry off his prize to Chinatown. On Sunday unight, accompanied by four armed cutthroats, a rival highbinder burst into the pawnbroker's throats, a rival highbinder burst into the pawnbroker's lodgings and carried off the girl. The pawnbroker appealed to the Gah Sin Sur highbinders to rescue the girl, and, incited by professional pride and a reward of several hundred dollars, they opened war on the kidnappers. Several hot shirmishes have occurred within the last forty-eight hours, and a half dozen Chinamen have been injured by hatchets and pistol shots. A detail of police has been sent to Chinatown to repress the heathen belligerents.

VOTING AND TALKING ON THE MILLS BILL. campaign of bread and butter. They had seen ONLY DEMOCRATIC AMENDMENTS NEED APPLY-MR. REED'S LIVELY PASSAGE WITH " BOSS"

SCOTT-THE BOUSE ADJOURNS OVER THE FOURTH. Washington, July 3 (Special).—The House resumed consideration of the Tariff bill at page 15, and wound up at page 18, glass and fron being the objects of taxa-tion immediately brought up. The debate drifted along in an uninteresting manner. Every amendment ex-

ost of the Progressives would vote the Republican the Republican party had gone back on its platform of 1884, wherein it had declared itself in favor of a revision of the tariff, and was now going before the country on a principle which it had never before advocated of "American markets for American products, and for American industries and labor." He asserted that this was a policy of protecting one million and a half of wage workers against sixteen millions of a like class. Mr. Reed, of Maine, welcomed Mr. Scott back from his other avocations to attend to his occasional duties in Congress. (Laughter.) If he had been here he would have known that this question had been fully discussed. Mr. Scott querulously complained at this allusion to his absence, which he said had not been more frequent than those of the gentle-man from Maine. Mr. Roed retorted that his reference to the absenteeism of the member from Erle was not intended in any spirit of unkindness, but he wanted to find an excuse for the gentleman's evident lack of

Mr. Bland, of Missouri, pleaded for some let up on these political discussions, so that members could get away before the dog days. Mr. Dingley, of Maine, reminded the gentleman from Missouri that it was himself who had started the political discussions. He charged upon the Democratic majority a deliberate purpose to discriminate between North and South in their legislation on this bill. He inquired why it was that sugar, one of the chief necessaries of life, was still left protected, and he punctured the fallacy of the assertion that this free trade policy was a movement in favor of the agricultural interests as against the manufacturing "monopolies," by declaring that there was not a farmer in his district who would not declare that he had been benefited by having protected ment was warmly applauded on the Republican side.

His father was at one time Public Printer of Ohio and is now in New-York City. nel Nevins has been a resident of Pittsburg for four or five years only and his appointment as Government

or five years only and his appointment as Government Architect was a surprise to the local Democracy. He was removed two months ago.

Colonel Nevins is charged with having presented to Collector of Customs Barr, who acts as United States Disbursing Agent, for payment, fraudulent claims for money alleged to be due Contractor Bartley Donovan for work on the new Government Building, and that he forged Donovan's signature to the vouchers and receipts for the money.

DID CRUELTY MAKE HER A WAIF AND LIAR? The mystery of the little girl, Mamie Greene as she called herself, who was found under the platform at No. 216 Duane-st. Monday morning was solved yesterday. The story told by her of her coming with her uncle from Germany and being deserted by him here proved to be a falsehood. Frank Schears and Louis Hetzmen, of Elizabeth, N. J., who had read the Story of the child in the papers, came to Castle Garden and quickly identified her as Selma, or "Sallie" Lehman, the daughter of August Lehman, an employe of the Jersey Central car shops at Eliza-They said that she came to Elizabeth with her father and stepmother about ten months ago. She worked for Schears as nurse girl until about a month ago and then took the same position in Mr. Hetzman's family. Two weeks ago Saturday she disappeared and nothing had been seen of her since appeared and nothing had been seen a lot into until now. When confronted by the two men the child confessed that she had been lying. She said that she ran away because she was abused. Her father was telegraphed for by Superintendent Jackson and was expected to come for her last night.

People in Long Island City seemed to have little to talk about yesterday but the arrest of Dr. Z. P. Dennler talk about yesterday but the arrest of Dr. Z. P. Dennier's and Mrs. Gregory, a bording-house keeper. Dr. Dennier's arrest was on a warrant issued by Coroner James Robinson, charging him with being the cause of the death of Bertha Froiland, whose funeral took place on Monday. Mrs. Gregory was apprehended as an accessory. E. Ellingson, who, it is believed, was the author of the ghi's downfall, is at present locked up in the Queens County Jali. Dr. Dennier's exact words on Monday, when spoken to by a reporter, were: "The operation is simple enough, to by a reporter, were: "The operation is simple enough, but as God hears me, I never was guilty of such an act; I have religious scruples against it." He declines to say anything further until the inquest. Mrs. Gregory is say anything further until the inducat. Airs, Gregory is completely prostrated. Both were released on bail, the former in \$2,000 and the latter in \$200. Bertha left the home of Mr. Mason, in Franklin-st., Greenpoint, a week ago Thursday, apparently in the best of health. Leas than two hours later, according to Mrs. Gregory's story, than two hours later, according to Mrs. Gregory's soly, she arrived at her house scarcely able to stand, and Dr. Dennier was called in. He, so he says, made a simple superficial examination, and diagnosed the case as in-flammation of the bowels. But on Friday she had a chill and then, he declares, he made a more thorough investigation and found that she was suffering from the results of malpractice. He told her then that she must die, but he falled to notify the Coroner so that her ante-mortem deposition could be taken.

MYSTERIOUS FLAMES IN LEONARD-ST.

CONSIDERABLE DAMAGE IN A SHORT TIME-LISTS

OF INSURANCES. Porters in the employ of H. Bauendahl & Ca., importers of woollen cloth, in the upper part of the five-story building Nos. 76 and 78 Leonard-st., were sweeping out the rooms before 8 a. m. yesterday, when flames started mysteriously in the fourth story. The firemen were called quickly and they extinguished the flames in about half an hour. They did not permit the fire to extend beyond the fourth story and the damage to the building did not exceed \$2,000. Most of the stock on the lower floors had been covered with rubber blankets by the Insurance Patrol before the fire was out. Policemen estimated the loss of H. Bauendahl & Co. at \$15,000, but Mr. Bauendahl said the firm would lose between \$50,000 and \$60,000. The firm's stock, he said, was worth about \$150,000. Haff & Waibridge, dealers in notions on the second floor, lost only a few hundred dollars by water. Mr. Bauendahl and other occupants of the building were at a loss to understand how a fire could start in the building in the presence of workmen without any apparent cause. The fire marshal will make an investigation

HEAVY LOSSES IN THE READING FIRE. Reading. Penn., July 3.—The loss caused by the almost total destruction of the plant of the Reading Hardware Works last night is larger than at first supposed. Members of the firm estimated their loss at about \$475,000, of which \$175,000 is on the buildings, \$175,000 on material, machinery and tools, and \$125,000 on finished and unfinished stock. The theory that the fire was caused by firecrackers thrown by boys from the street into inflammable material in the building is very generally accepted as the correct one. The insurance amounts to \$208,000. The firm will rebuild at once.

LOSSES IN VARIOUS PLACES. Buffalo, July 3.-Fire this afternoon destroyed the building of the Buffalo Cast Iron Pipe Company, in Exchange-st. The loss will probably reach \$50,000.

The executor doubted their statement and brings suit.

Annapolis, Md., July 3.—The nature of the hazing on the United States practice ship Constellation was learned to-day from Captain Sampson, Superintendent of the Naval Academy. The third class have been hazing the fourth class men, who entered by the May examination. The fourth class men were made to chew candles, cat soap, stand on their heads, and to use only certain ladders on the ship. The law commands the superintendent to order a court-martial as seon as a case of hazing comes to his notice. The whole ship's company will spend the hot July days in this port, with the thermometer in the nineties, instead of visiting the various summer resorts in cool northern latitudes.

A METEOR THAT RIVALLED THE SUN.

Milwaukee, July 3.—A dispatch to "The Evening Wisconsin" from Appleton says: "At 2:30 yesterday afternoon a tremendous meteor was observed to pass across the southern sky from east to west. It rivalled the sun in brightness and left a long train of sparks in its wake. The meteor moved slowly and was evidently at a very great height. It was visible for half a minute and finally raded away without noise."

CUTICURA REMEDIES performed on me. About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time night the scales, being formed meanwhile, were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of ecovery, I happened to see an advertisement in the news hem from my druggist, and obtained almost immediate clief. I began to notice that the scaly cruptions gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen menths before I began taking the CUTICUPA REMEDIES, and in four or began taking the CUTICURA REMEDIES, and in four or five weeks was entirely cured. My disease was ecrema and psoriasis. I recommended the CUTICURA REMEDIES to all in my vicinity, and I know of a great many who have taken them, and thank me for the knowledge of them, especially mothers who have babes with scaly crup-tions on their heads and bodies. I cannot express in words the thanks to you for what the CUTICURA REMEDIES have been to me. My body was covered with scales, and I was an awful spectacle to behold. Now we say is as nice and clear as a haby's. my sain is as nice and clear as a baby's.

SEVEN FRESH-AIR PARTIES.

AWAY FOR HEALTH AND PLEASURE.

THE BARD HOME LOT OF THE LITTLE UNFORTU-NATES-FIVE STATES RECEIVE THEM. It was amusing to the passengers in the Eric Rall-way Station at Chambers-st., Monday morning, to see a party of Fresh-Air children rush into the ferry-house eager to cross and take the cars for Montgom-ery, N. Y. The car which had carried them from their hem s was blockaded some ten squares above the station and the little ones had to walk with all their might, arriving at the ferry not one minute too soon. But they were a jolly lot in spite of their hard run and pushed forward to the bow of the boat, where with hats off and hands full of packages and baskets, they prattled and made many droll reon the boats and objects in the river, all of which, of course, were now to the majority of them.

Just before they reached the Jersey City side, bystander, a middle-aged man in a shaggy coat, of rough exterior, but with a heart as big as himself, handed the attendant of the party a bill and said, "Lady divide this among the little fellows, it ain't much, but I'm glad to help give them a little enjoy-There were eleven girls in the party and ten ment." boys. Each carried a bundle containing a second pair of shoes and a change of raiment in anticipation of the freedom of the country. Two had been out be fore, but the rest lacked not a whit in the anticipation of good times to come since all year their companions who had enjoyed last summer's outing had incessantly poured into their ears tales of country life and the many novel sights to be seen there. The party arrived at Montgomery at 11:33 a. m. and was ac-companied part of the way by two other parties of smaller number, one to Sullivan County, N. They are too young and delicate to add to the resources of their respective families, and by being sent into the country, not only are the paternal cares and burdens lightened, but the children are physically rejuven-ated. This whole party to Hightstown will be the cuests of the illustrated paper "Life," and will be distributed among the fruit farms of that neighborhood, to feast among the strawberries, raspberries and cherries, care being taken by Mr. Norton, chair man of the reception committee, that no children shall be placed on farms where there is no fruit. Fifth Ward of the city, and is composed of a medley of nationalities, with possibly a predominance of the German element. Of this half six are girls and fourteen boys. They all live in tenement-houses, but several are far above the average tenement family, more respectable in both demeaner and aim of life. They are descendants of a hard-working class, and many of the children themselves may be found in the factories making neckties, shirtbands and cuffs, or in the dressmaker's apprenticeship. Aside from the seven working women who were sent into Connecticut, the last and most important excursion of the day was the fifty young working girls which went by the Norwich Boat to Brattleboro, Vt., thus making seven Fresh-Air parties in one boro, Vt., thus making seven Fresh-Air parties in one day sent into five different States. These young women all earn their livelihood and many of them support, or help support, their families. Five mission schools are represented in their number, the Frank Avenue Branch, the Franklin Avenue Presbyterian Church Throop Avenue Mission, Gospel Mission and the Third Street Mission, all of Brooklyn. Some work in shoe factories, some on hat finishing and many are sewing girls. Their hours are long and the remuneration meagre, in one or two cases only a dollar a week and with the additional stipulation of boarding themselves.

the remueration meagre, in one or two cases only a dollar a week and with the additional stipulation of boarding theaselves.

In several cases, the mission societies have to pay the wages of the young women while they are gone, the parents not giving their consent apon any other terms. In other Instances, where there are sisters in the family, these states take their vacations in alternate years, since they cannot space the wages of both in one summer. Not one of the party is a real, sound, healthy woman, and the examining physicians declare that it is a matter of life and death for not a few of them that they spend two weeks in rest under the influence of pure air and healthful diet. Their reception at Brattleboro will be of the most pleasant character possible. The cottage in which they are entertained is enclosed by a park of thirty acres with lovely trees and flowers and broad walks. Swings will be provided and croquet to their hearts' content.

The people of the village manifest a keen interest by providing amusement in the evening, such as concer's, readings and stereopticon lectures, while the visitors reciprocate in like manner, since nearly all can sing, a few play the organ and occasionally a good elocutionist is found among them. The effect," said one of the ladles who had charge of the party, "is most elevating; they learn many points of table cilquette and are imbued with a more thorough appreciation of the home life. They meet many discouragements in their homes, and have little opportunity of ever getting higher, but this annual visit stimulates them, shows them what they can do, and physically invigorates them to such a degree that they can work the whole winter through without having recourse to medicine, as formerly. Last Christmas Mrs. Crowell is the Editor and proprietor of "The Household," and each girl a cit, and at Easter each was the recipient of a beautiful card. From the Haltmore News (Dem.)

Why cannot simple justice be done to Mr. Blaine now? It would not hart the humblest or the loftiest of his enemies, When a hot political simoom is reging there is some little excuse for men attering ugly things of each other and actually believing what they say or hear. Seasons of intense excitement carry even the coolest men away upon gusts of partisanship, but when the blast of passion or excitement is passed they should come to reason and justice.

Mr. Blaine is undoubtedly the most brilliant public man in this country to-day. His abilities have been recognized by friends and opponents for many years. The prople of his state and neighborhood have delighted to honor him and avail themselves of his abilities, experience dad services whenever and wherever they desired or needed to be represented. He has been again and again entrusted with great and important public responsibilities, and has so discharged them and conducted himself as to merit and receive the commendation of his constituents. He was a marked figure in Congress, was conceded to be one of the ablest Speakers of the House of Representatives that ever decaded over that august body; has been honored with a seat in the United States Senate; was Secretary of State under President Garfield; was the nominee of the Republican party in 1864 for President of the United States, and came within a small margin of being elected, and he was so esteemed and idolized by that great fraction of the American people known as the Republican party that he could have had its unanimous nomination for the same high place if he would have accepted it this time. Indeed, it required repeated refusals from him to prevent them from thrusting the nomination upon him anyhow.

A man so highly esteemed and beloved by so large and intelligent and moral a part of the population of this country must have many elements of goodness and greatness about him. His work, his fame, his attainments should be the property and pride of no one political party. Espec

vate walks the poisoned pen of political prejudice or private malice should not pursue him. He deserves all the consideration of his countrymen that his eminent abilities and personal virtues command from strangers. And hence the siurs and sacers from little heads and smaller hearts should cease. It would not be just to revile him if he was a political candidate, although much license is allowed to partisanship, but since he is only a private citizen he is at least entitled to the immunity due to a private citizen. His character and feelings are to be regarded and the sensibilities of his family respected. This would be but naked justice to an eminent American, and this justice American intelligence, patriotism and manifeness can be depended upon to freely and liberally render in the future.

PLENTEOUS CROPS IN THE SOUTHWEST. A BAD OUTLOOK FOR THE "BEAR" ELEMENT IN

WALL STREET.

The condition of the crops has become a matter of absorbing interest in Wall Street. The bear faction seems to be disturbed by the continued favorable reports and satisfies itself with predictions that it will ruire more than one good harvest to save some of the Western railroads from bankruptcy. It was reported yesterday that another "expert" analysis would be sprung on the Street in a day or two. A sharp decline in Rock Island stock was considered an intimation that the attack would be renewed in that quarter. In the Southwest the crops are assured and speculative movements against Southwestern railroads appear to be abandoned. In reply to inquiries from friends in the East, Angell, Matthewson & Co., a prominent banking house at Parsons, Kansas, has just written:
"In regard to crops of all kinds we can say that

Southern Kansas has a botter prospect this year than ever before. Wheat is nearly all cut and in the shock; it is of fine quality and the yield is good. An immense crop of cats is nearly ready for the barvest. Vegetables of all kinds are in abundance and fruit promises a large yield. Corn is nearly all in splendid condition after our copious rains and the festive chinch bug has disappeared."

GRAIN AND PRODUCE MARKETS,

FEATURES OF NEW-YORK DEALINGS. The Produce Exchange markets were strong yesterday on a moderate volume of business. The European ad-vices were favorable to an advance, and the American Hendrickson, of Brooklyn, executor of the estate of Mrs. Hannah Smith, formerly of that town. Mrs. Smith, who died at the age of ninety-three years, on December 27, boarded with Mrs. Sarah E. Dogart, of Jamaice. In November Mr. Hendrickson saw a reliable of the Dispensary for Women and eleven, inmates of the Markets promptly responded. Wheat on the American markets promptly responded. October, 90 1-2; December, 92 5-8, and May, 97 5-8.
There was a good business in spot corn, and exporters took over 100,000 business. Options were fairly active, but after a strong opening the market showed weakness, and after a strong opening the market showed weakness, and the closing was barely steady at about the lowest prices. The final figures were: July, 53:1-2; August, 55; September, 56; October, 56:5-8; November, 56:1-2, and December, 53. Oats closed rather weak, although July options were as much higher as the later ones were lower. July closed at 35. August at 31:1-4 and September at 80:1-4c. In provisions there were no sales for export. Lard continued to decline and at the close was quoted: July, \$8:28; August \$8:27; September, \$8:30; October, \$8:28; and November, \$7:80.

88 28, and November, 87 80.
The receipts of flour and grain reported yesterday at New-York, Philadelphia, Baltimore and Boston were as follows: Wheat, 5.556 bushels; corn, 235,509 bushels; cats, 198,386 bushels; total grain, 439,511 bushels; flour, 31,736 packages. At Chicago, Milwaukee and St. Louis the arrivals were: Wheat, 45,857 bushels; corn, 126,674 bushels; cuts, 119,028 bushels; total grain, 291,559 bushels; flour, 29,800 barrels.

THE TRADE IN CHICAGO. Chicago, July 3 (Special).—Under the impetus of good buying by foreign shorts and of a good deal of news from abroad of a decidedly bull tone, wheat opened higher and advanced. Even "calis" did not stop the tendency for the close was at 3-8 cent above the "cali" price. One cable dispatch predicted a shortage in the French crop of 20,000,000 hestolities, over 50,000,000 bushels, and the tenor of a half dozen cables received from different foreign points by Messrs. Baldwin and Farnum tend to show very poor crops indeed in the west and southwest of Europe, while conceding good prospects in the east. The French cables were loked upon with a little suspicion. The New-Yofkers, or those of them who form the exporting party clique there, tried to "scalp" this market by builling early and then, just before 1 o'clock, selling heavily and sending on word that late cables showed a decline. July was strong, opening exactly where August did, and closing 1-8e under it. tenor of a half dozen cables received from different foreign

Vessel room was chartered for nearly 600,000 bushels of corn, a pretty good evidence of a sharper cash demand. The spread between July and August also narrowed down to 5-8c against Ic yesterday—an indication of the same sort. The receipts in the morning were just about the expectations, 280 cars, the estimates for Wednesday, 188 cars. August opened at 48 1-2 cents, sold between 40 and 48 3-8, and closed at 48 5-8. July kept at 5-8 cent discount.

THE PETROLEUM MARKET.

The crude markets were affected by the holiday spirit and the business at the Exchanges was reduced to small proportions. The extreme fluctuations were within a range of 1 cent a barrel, and while the first prices were the highest, the lowest showed no naterial decline. The field news was insignificant and had no bearing on the speculation. The course of prices, in fact, is controlled by professional operators, and as in the at+ck market the most The range of prices and the total dealings were as fol-
